

Caught between a rock & a hard spot?

Investment & Equity Losses Increasing ?

Credit Card Rates Too High ? Debt Collectors Calling ?

Pending Foreclosure ? Bankruptcy On The Horizon ?

By their very nature, these types of problems always seem to occur when you can least afford to pay thousands of dollars in professional fees to resolve them. Consumers and taxpayers just don't have the thousands of dollars it normally requires to get the professional help in order to stop a foreclosure, learn about bankruptcy options, settle a divorce, deal with debt collectors, prevent equity and investment losses, and/or deal with a host of other costly problems that are rapidly becoming commonplace in today's failing economy. In fact, for many thousands of consumers across the country, getting the professional help they need is financially impossible. As a result, many folks end up losing their money, investments, homes, property, savings, retirement income, and much more; **many times in circumstances where a single, well-written letter may have enabled them to take control of the situation and avoid losses.** In all too many cases, the prohibitive costs coupled with the urgency of a matter dictate that you must "fend for yourself."

This is exactly why **The EHS Letter Manual** was created and published. You can use this manual to independently, inexpensively, immediately, privately, and pro-actively take actions to protect your money, income, and property from unnecessary loss. This manual is complete with instructions, comments, sample letters, strategic information, and it is sold with personal access to extensive reference materials and email support via the Internet.

Just like a "picture is worth a thousand words," your well-written letter can be worth thousands of dollars to you in today's failing economy; especially when an urgent, financial problem raises its ugly head. Visit **www.ehsportal.com** for additional information about the **The EHS Letter Manual**. The price of the manual is \$75 plus \$7.50 for handling and shipping via US Priority Mail with Delivery Confirmation (total of \$82.50). Offer valid only in the Continental United States. Orders are normally processed within 24 hours.
